

Quickly and easily find, prioritize and fix credit reporting issues

An innovative partnership from two industry leaders

At Equifax, we're committed to maintaining high standards for data accuracy and compliance — and we believe it's our job to help the data furnishing community do the same. Through our partnership with Bridgeforce Data Solutions, furnishers now have seamless access to Bridgeforce's industry-leading Data Quality Scanner tool along with credit reporting and disputes management consulting. Together, Equifax and Bridgeforce offer a best-in-class credit reporting compliance and disputes management solution.

A fully integrated and proven solution

Bridgeforce's Data Quality Scanner (DQS) is the industry's leading automated credit reporting accuracy solution, enabling you to proactively identify and resolve account-level issues before they become costly disputes, complaints, or regulatory risks. Coupled with access to Bridgeforce's hands-on consultants, who bring decades of expertise with data furnishers of all types and sizes, this partnership offers you a fully integrated, quick and easy approach to credit reporting compliance and disputes management that leverages your existing Equifax data furnishing processes.

Find	Prioritize	Fix
Go beyond internal solutions or reject and error reports with 380+ risk-ranked rules including month-over-month analysis.	Address issues based on an automated full inspection of your files and drill down into account-level detail to find the root cause.	Leverage Bridgeforce's hands-on consulting support when you need help, and address the full breadth of your credit reporting and disputes needs.

>30% reduction in credit reporting dispute rate by a super-regional bank

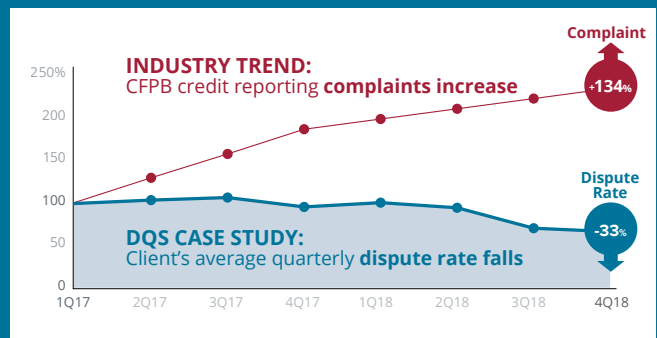

Chart compares the percent increase in CFPB credit reporting complaints relative to the percent decrease in average quarterly dispute rates achieved post-DQS implementation. Source: Bridgeforce Data Solutions

Want to get started? We'll connect you with the Bridgeforce team. Upon your execution of an agreement with Bridgeforce, and with your consent, Equifax can securely send your furnishing data to DQS on your behalf. Alternatively, you can send it to DQS directly. Either way, you'll be seeing results quickly and easily.
